RE: EPA Bristol Bay Assessment Report

Dear Mr. McLarren,

The Kachemak Bay Conservation Society (KBCS) wishes to thank you for the EPA Bristol Bay Assessment Report on the potential impact of the Pebble Mine project which concludes that large-scale mining poses devastating risks to salmon.

The State of Alaska needs strong environmental protections now more than ever. In a time when Alaskans must contend with the Parnell administration, KBCS is pleased that you have delivered the facts concerning an issue that would have devastating repercussions for Bristol Bay, as well as the entire areas salmon industry.

Sincerely,

Roberta Highland, President
Kachemak Bay Conservation Society
